

EMERGENCY SUPPLIES CHECKLIST

1. Be prepared in advance, open an account with a nationwide OS&E and foodservice distributor who has distribution centers across the country. In the event of a natural disaster, they may be better able to redirect their footprint of resources to your area before and after a disaster event.
2. Audit your current emergency supplies. Do you already have the basics? Consider stocking up on hard-to-get at the last minute emergency supplies, such as batteries, flashlights, first-aid kits, and two-way radios.
3. Prepare a short-list of additional supplies you might need in advance, so you can act quickly both before and after an emergency event. Having a plan in place helps enable you to take immediate action at a moment's notice.
4. Consider printing this checklist including the supplier contact information and store together with emergency supplies.

Items are available through a Wyndham Hotels & Resorts approved OS&E and/or MRO Distributor.
